Hexaware launches new campus in Pune

Mumbai, Jan 9 2017: Hexaware Technologies Limited, a leading global provider of Application, Infrastructure, BPS and Digital services, today announced the launch of its latest delivery centre in Pune, India. The addition of this centre in its global delivery network will further strengthen the Company's delivery capabilities in providing accelerated business process solutions for clients across industries and various geographies.

Situated at a prime location with a scenic backdrop in Hinjewadi Phase III, Pune, this state of the art delivery centre is all set to deliver high value and domain specific services for global clientele across verticals. The centre is based on the concept of "Campus Within Campus" as one does not need to step out of the premises to access common amenities. The spacious workspaces have break out areas designed on each floor, which act as stress busters during working hours. The ambience is akin to that of a premier business school and promotes a very stress-free environment, encouraging learning and innovation.

"We continue to expand our global delivery footprint in anticipation of sustained growth. Pune will become one of the largest delivery centres for us, allowing us to tap into new talent pools and provides an alternative to our Chennai and Mumbai campuses." said **R Srikrishna, Chief Executive Officer, Hexaware Technologies.**

The Pune centre will strengthen the company's global delivery network and provide customers with an unparalleled experience of service. In addition, Hexaware has Global Delivery Centres located in Mumbai, Chennai, Nagpur and Bengaluru in India.

About Hexaware

Hexaware is a leading global provider of IT, Application, Infrastructure, BPS and Digital services. Our business philosophy of Shrink IT, Grow Digital allows customers to significantly shrink commodity IT spend while partnering with them to embrace digitalization. The Company focuses on key domains such as Banking, Financial Services, Capital Market, Healthcare, Insurance, Manufacturing, Retail, Education, Telecom, Travel, Transportation and Logistics. Hexaware is committed to deliver business results and leverage technology solutions by specializing in Application Development & Maintenance, Business Intelligence & Analytics, Quality Assurance and Testing Services, Infrastructure Management Services, Business Process Services and Enterprise Solutions. Founded in 1990, Hexaware has a well-established global delivery model armed with proprietary tools and methodologies, skilled human capital and SEI CMMI-Level 5 certification.
