

Case Study

Digital Workplace Implementation Yields Boosted Process Efficiency, optimized Performance and Cost Savings

About the Client:

Headquartered in India, the client is a leading steel manufacturing giant with operations across 26 countries and presence in over 50 countries. With facilities and operations across the globe, the client’s diverse portfolio finds its presence in multiple industries and segments.

Requirements:

The client expected Hexaware to provide large scale digitalization of workplace services. They had multilingual technology Support Desk which provided Level1 support across applications. This was done over email, phone, web and chat. They had varied service desks for different kind of applications and these were managed separately too. The client wanted easier management of the service desks and proper digitally organized solutions for volumetric data of more than 29,000 tickets for its 40,000 plus users

Solution:

Hexaware’s team thoroughly analyzed and identified opportunities for smarter digital solutions that lead to a boost in productivity. Hexaware implemented digital workplace solutions like:

The operational transformations primarily defined using solution enablers like Cisco, DOCKIT and ServiceNow were

24x7 Service desk support for 300+ applications delivered from 4 client locations in India

Dedicated Regional service delivery model

On Premise Support in 3 client manufacturing locations across India

Digital Services Hub – for a single point of accountability

Dedicated Operations Management Center for the client at Hexaware Mumbai office and more

Process efficiency – through SOPs and improved FCR

Business Benefits Achieved

Consolidation of two different service desks into a centralized service desk for a single source of accountability

A 95% reduction in time for gate pass achieved by setting up of near-shore Hexaware facility

20% increase in First Call Resolutions (FCR) through process optimization

60% of employees rebadged from incumbent teams thus offering service continuity across

Additionally, better documentation of SOPs, improved call support and newly introduced IVR based resolutions integrated with CSAT model solutions from Hexaware helped the client boost customer experience with service satisfaction. Digital features and automation brought down manual intervention greatly for a major reduction in manual efforts. Overall the client was able to achieve optimal efficiency, better process management, operational optimization and save upon time and efforts after implementation of digital workplace solutions.

About Hexaware

Hexaware is the fastest growing next-generation provider of IT, BPO and consulting services. Our focus lies on taking a leadership position in helping our clients attain customer intimacy as their competitive advantage. Our digital offerings have helped our clients achieve operational excellence and customer delight by 'Powering Man Machine Collaboration.' We are now on a journey of metamorphosing the experiences of our customer's customers by leveraging our industry-leading delivery and execution model, built around the strategy— 'AUTOMATE EVERYTHING™, CLOUDIFY EVERYTHING™, TRANSFORM CUSTOMER EXPERIENCES™'.

We serve customers in Banking, Financial Services, Capital Markets, Healthcare, Insurance, Manufacturing, Retail, Education, Telecom, Professional Services (Tax, Audit, Accounting and Legal), Travel, Transportation and Logistics.
