Healthcare & Insurance

**Investor & Analyst Meet 2019**

**FINANCIALS**

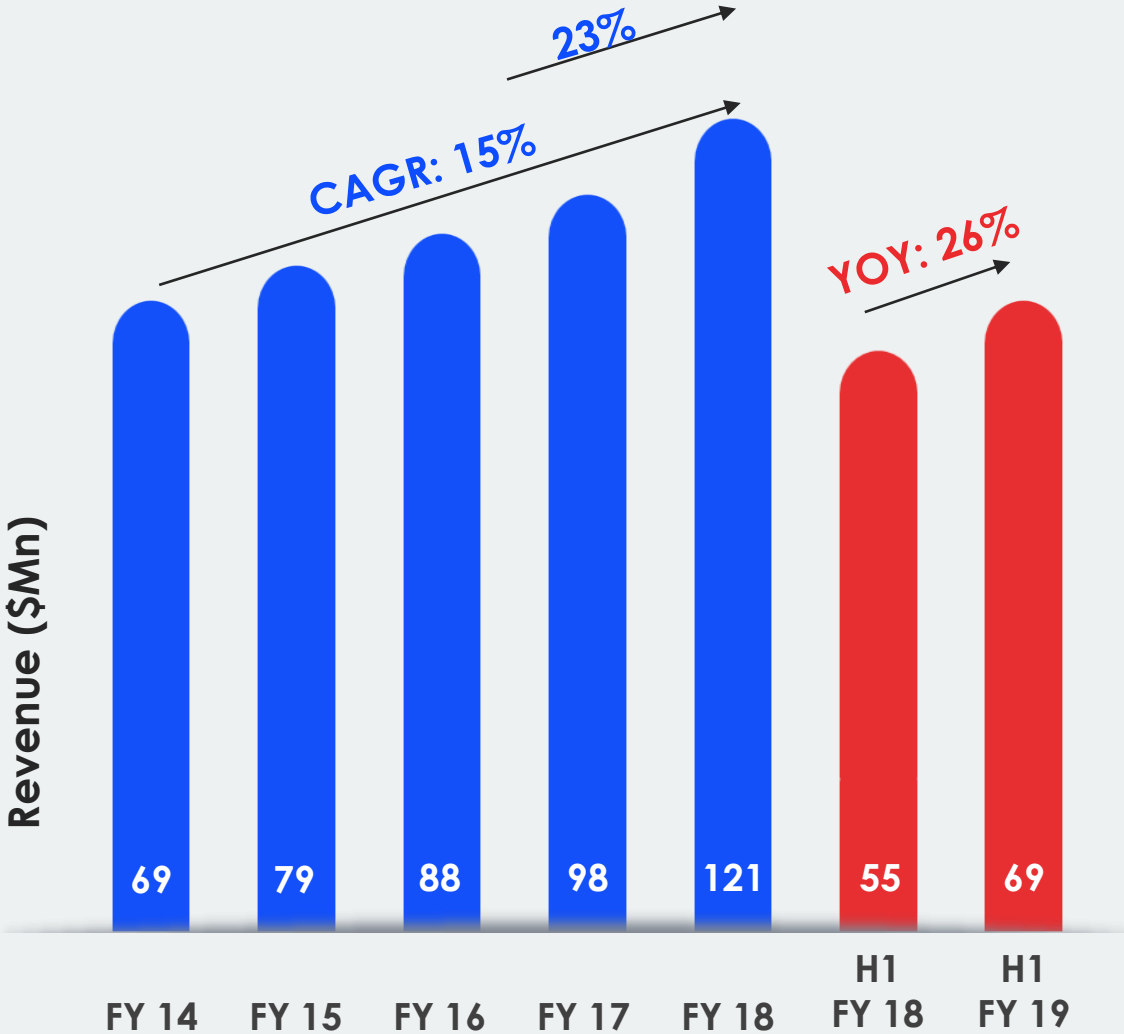

**WHAT LED TO PERFORMANCE**

**STRATEGY TO SUSTAIN GROWTH**

# FINANCIALS

## Scale Of Engagements

- >\$1M Accounts From 15 To 28
- >\$5M Accounts From 3 To 10

## Balanced Geographic Portfolio (US:EU:APAC)

- From 80:12:8 To 63:29:8

## Diversified Service Line Portfolio (Apps:IMS:BPS)

- From 90:4:6 To 79:12:9

## Quality Of Revenue

- 13 Guidewire Customers

# What led to performance

Obsessive alignment to super horizontal strategy

Focus on generational change in  
Property & Casualty insurance

Investments in growing existing  
healthcare accounts

Sharply defined sweet spots for hunting

# AUTOMATE EVERYTHING partner for a large Life sciences company with 55,000+ employees

**75**  
Business workstreams

**100+**  
Processes identified

**20+**  
Automation programs

Experience		Global Service Desk Operations (with Chatbots, Voice Bots)		Chat & Voice Bots, Unified Portal BPM UI		Physician and payer engagement
Clinical/commercial operations	Budgets, Proposals, Contracts, Reconciliations & close, Billing & Collections		Clinical Audit & Regulatory Inspection Process	Centralized Monitoring (Automating subject level reviews)	Clinical study FDA Submission	
IT Applications	L1-L2 Production support (Mainframes)	<ul style="list-style-type: none"> <li>CI / CD</li> <li>SAP support (Automated user creation)</li> </ul>	<ul style="list-style-type: none"> <li>Mulesoft ( Integrate Finance &amp; clinical apps with Peoplesoft)</li> <li>Apps Support Salesforce (L1-L2)</li> </ul>	Automation with Appian, IBM products		
IT Infrastructure		(Account unlock, system restart etc)				<ul style="list-style-type: none"> <li>User Provisioning for Azure AD</li> <li>IaaS - VM Provisioning</li> </ul>
Software Testing	Tools for testing RPA bots	Selenium, I2DE	API Testing framework			
Data Infrastructure		DW, Clinical data factory and analytics, reports			Automated document classification ( using Keras, scikit-learn, Tensors-flow)	
	RPA	Technology Specific Tools	API	BPM	ML/AI/OCR	Core Platform

How are we automating

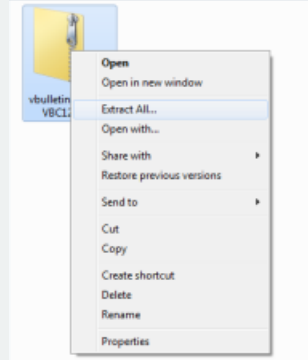

What are we automating

# AUTOMATE EVERYTHING

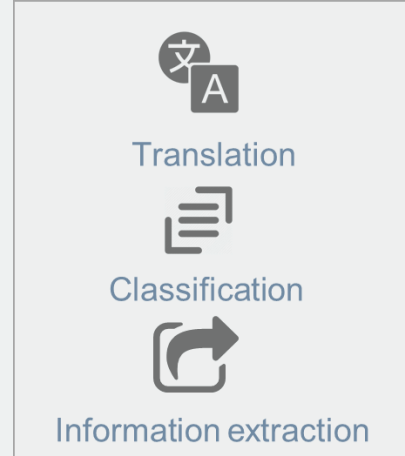

## Clinical trial example

Clinical trial protocol  
“How a trial will be conducted”

Manually Upload

Trial master file  
“Was the trial conducted as per protocol”

~ **23 million**  
documents

~ **4000**  
categories

**100s** of  
locations,  
languages

- 100s of colleagues upload documents
- 20 mins per document
- High backlog

- 200+ colleagues translate documents
- 600 colleagues read and classify documents
- Error prone, overheads
- Variety & volume makes finding SMEs hard

Takes several weeks before clinical colleagues can reconstruct and evaluate how the trial was conducted and managed

# AUTOMATE EVERYTHING

## Clinical trial example

 ~ **23 million**  
documents

 ~ **4000**  
categories

 **100s** of  
locations,  
languages

- Cloud based automated upload and digitization
- Less than 5 mins per document
- Significant reduction in backlog

- Supervised deep learning
- Ops team reduced from 600 to 76
- Significant improvement in quality
- Reduced training time to onboard new specialists (SMEs)

- Faster access to information
- Improved adherence to regulatory standards
- Higher client satisfaction

# GUIDEWIRE

## One Of The World's Largest Diversified Insurance Companies

The client is in the process of implementing *Guidewire PolicyCenter* & *ClaimCenter* for multiple lines of business. Hexaware is the primary testing partner for the program working closely with the client. Hexaware has complete ownership and responsible for testing strategy, planning and ensuring quality across all the implementation workstreams.

1. 90% reduction in software deployment (7 hours to 15 mins)
2. World class quality (Less than 2% defects in production)
3. 50% reduction in software release cycle

# LIFETIME

THE HEALTHY WAY OF LIFE COMPANY<sup>SM</sup>

Hexaware supports  
the entire Lifetime  
experience

Digital outreach

Lifetime.life

Member services

Mobile
