Implementation and Support of centralized EDW on OBIEE platform for a Leading Leasing Services Provider in Germany

Client Overview

The client is the largest non-captive leasing company in Germany with product portfolio covering the entire range of financing services for investments

The Need

The current reporting needs were addressed by accessing data from multiple data warehouses sourced from multiple source systems. The need was to create a centralized repository of leasing data with a centralized data warehouse.
The Solution

- Developed a centralized enterprise data warehouse, holding data from all multiple source systems and provided a comprehensive integration with existing reporting systems.

- Execution was carried out in multiple phases – the first phase implementing a system for capturing incremental data loads and the second phase involving assimilation of all incremental data into one DWH mode.

- Provided support for the centralized data warehouse.

Value Delivered

- Decrease in overall administration and management effort by leveraging improved methodologies in data capture, retention, analysis, and loading
- Collation of all information into one data source, thus removing complexity in having multiple data centers
- Decrease in total cost for the customer by implementing systems for partial data loads thereby drastically bringing down process run times and ensuring more effective utilization of database resources
- Improvement on overall database effectiveness by utilizing the latest technology and more efficient processes to handle complex data

Technology Environment

Reporting - **Oracle Business Intelligence**

Source Systems — **Existing application systems & flat files**

Databases – **Oracle**

ETL Tools – **Oracle Warehouse Builder**

About Hexaware

Hexaware is the fastest growing next-generation provider of IT, BPO and consulting services. Our focus lies on taking a leadership position in helping our clients attain customer intimacy as their competitive advantage. Our digital offerings have helped our clients achieve operational excellence and customer delight by 'Powering Man Machine Collaboration.' We are now on a journey of metamorphosing the experiences of our customer's customers by leveraging our industry-leading delivery and execution model, built around the strategy— 'Automate Everything, Cloudify Everything, Transform Customer Experiences.' We serve customers in Banking, Financial Services, Capital Markets, Healthcare, Insurance, Manufacturing, Retail, Education, Telecom, Professional Services (Tax, Audit, Accounting and Legal), Travel, Transportation and Logistics. We deliver highly evolved services in Rapid Application prototyping, development and deployment; Build, Migrate and Run cloud solutions; Automation-based Application support; Enterprise Solutions for digitizing the back-office; Customer Experience Transformation; Business Intelligence & Analytics; Digital Assurance (Testing); Infrastructure Management Services; and Business Process Services. Hexaware services customers in over two dozen languages, from every major time zone and every major regulatory zone. Our goal is to be the first IT services company in the world to have a 50% digital workforce.
