

PeopleSoft 9.2 Upgrade Planning for a Leading Food Corporation

Client Description

One of US's leading food corporations, which supports major grocery chains

Business Imperatives

PeopleSoft 9.2. is one of the most compelling releases from Oracle yet. It offers customers unique transformation opportunity to transform businesses with an innovative user experience and robust capabilities. Apart from greater ROI and significant reduction in TCO, the upgrade comes with over 1000 new features and enhancements.

The PeopleSoft 9.2 capabilities are focused on solely operational efficiencies and business process optimization. These advanced enhancements, provide a scalable futuristic platform across the entire value chain of human capital management. Keeping these qualities of PeopleSoft 9.2 in sight our client wanted to bring in this upgrade into their process.

Solution

Hexaware's team was able to access new features and functionality to incorporate this into the process. An automated work flow approvals, guided navigations through work centers to achieve tasks etc., were received well with the users. We were also able to add the following business benefits:

- Probe - used for customization inventory, fit-gap and keep-drop analysis
- Saving 100 person-days of analysis effort
- Ensuring 100% coverage of customization and impact analysis
- Multiple retrofit and review tools (PS Query review/fix tool, Defect Tracking tool, Security Matrix)
- Combined saving of 45 person days of review efforts
