

The logo consists of the lowercase letters 'ti' in a white, bold, sans-serif font, followed by a period. It is positioned in the top right corner of the image.

ti.

Three small circles in blue, red, and yellow are arranged horizontally, separated by thin white lines, positioned above the main title.

Digital Student

Enhancing student experience
through digitalization

www.hexaware.com

Institutions are faced with multiple challenges today to improve their student experience, right spend on digital technology, transformative learning through digital technology, shrinking the connectivity divide between student and institution and to provide a seamless experience to On and Off campus learning, lifelong learners and distance learners. Hexaware's objective is to help institutions understand the complex maze of the technology world and help to identify the right path to digitalization by enabling institutions to build digitally connected campus.

"As per McGraw Hill Education Research, 81% of students use mobile devices to study and 62% of students say that technology helps them feel better prepared for classes."

Are you ready for the Digital Invasion ?

Our Solution

Hexaware's Digital Student services assist global institutions in building a digital eco-system for serving today's millennial student's needs and help institutions create a digital space for student through connected campus. Our digital solutions provide best-in-class user experience through multi-channel strategies for enhancing pre and post enrollment experience, engaging student in right channels to improve enrollment, create a unified platform for rich student experience, delivering engaging contents and services across devices, website and collaboration platforms. We converge the powers of SMAC, IoT, Automation & more to re-innovate your campus and build a digital connected campus.

About Our Education Practice

Hexaware is a specialised IT services provider with a dedicated practice focused on serving educational institutions. We have built deep expertise in the last 2 decades helping educational institutions worldwide in their business and technology needs. We work with different education providers such as universities, virtual institutions, distance education providers, lifelong education partners, content developers and publishers, to develop greater understanding of the needs of the education industry and have helped them in their digital transformation journey. Hexaware offers the complete portfolio of solutions for educational institutions ranging from the Business Transformation Strategy and Enterprise Architecture Consulting Services; to Application Design, Development, Implementation, Maintenance and Support; to IT Infrastructure and Business Process Outsourcing. We use the Hexaware experience and proven methodologies to address the unique client requirements, while leveraging tools and solutions accelerators to reduce the time to market.
