

Case Study

Seamless Migration to Azure with Efficient Management and Support

Migrating to cloud is the best technique for managing increased traffic, scaling resources on the fly to meet fluctuating demands and meeting growing storage needs with reduced operational costs while increasing the effectiveness of IT processes and infrastructure.

About the Client

The client is a one of the top universities in Australia and is ranked amongst the top 60 universities of the world. With an employee strength of 6000+, they had a revenue of \$ 2.12 Billion.

Business Challenge

The client wanted to migrate their on-premise applications to cloud for consolidating their datacenter footprint and reducing their TCO. They also faced challenges with:

Performance and
SLA adherence

Poor flexibility of
operations

They could
definitely provide
better user
experiences

The existing legacy
solution could not
scale easily

The Solution

Hexaware's Azure Migrate and Management solution provided defect-free migration of the workloads to Azure through an automated and touchless platform that helped discover weak points, assess, and migrate PeopleSoft and .NET applications hosted on Windows servers and SQL databases in on-premise datacentres.

The solution utilizes various Azure based PaaS services like Azure Storage, Azure App service and Azure's robust security services.

Hexaware's unified cloud management platform was used to provide a single pane of control and visibility for service management, governance, monitoring, provisioning and orchestration.

Business Benefits

Hexaware provided cloud solutions that are scalable, reliable, and highly available to deliver the cloud benefits while resolving our client's problems. We also helped the client with all the associated maintenance and error control efforts and provided complete support to deliver advantages like

Significant reduction in TCO with Highly available services

Automated and standardized monitoring and management processes across business units for increased control and visibility of the cloud landscape through a single pane of view

Secure, scalable and flexible solution with cloud benefits

Hexaware's Cloud Adoption Framework, built on industry best practices, led to a clear and accelerated adoption of Cloud, while automating and streamlining ongoing operations

About Hexaware

Hexaware is the fastest growing next-generation provider of IT, BPO and consulting services. Our focus lies on taking a leadership position in helping our clients attain customer intimacy as their competitive advantage. Our digital offerings have helped our clients achieve operational excellence and customer delight by 'Powering Man Machine Collaboration.' We are now on a journey of metamorphosing the experiences of our customer's customers by leveraging our industry leading delivery and execution model, built around the strategy— Automate Everything®, Cloudify Everything®, Transform Customer Experiences®.

Hexaware services customers in over two dozen languages, from every major time zone and every major regulatory zone. Our goal is to be the first IT services company in the world to have a 50% digital workforce.
