

# Hexaware

"Hexaware is one of the leading one-stop shop providers in the U.S. SME sector owing to its Amaze® for ERP platform, which offers S/4 transformation and in-depth industry knowledge, particularly in the manufacturing segment."

*Tarun Vaid*

## Overview

Hexaware is headquartered in Mumbai, India. It has more than 32,000 employees across 54 offices in 28 countries. In CY24, the company generated \$1.43 billion in revenue, with Financial Services as its largest segment. Hexaware provides SAP S/4HANA transformation through its Amaze® for ERP platform, which leverages the best practices of SAP Activate. It works closely with clients to reimagine their business processes and future-proof their transformation journey. Hexaware is an authorized PartnerEdge Sell partner in the U.S., providing licenses and services, with more than 160 SAP engagements and over 750 certified consultants.

## Strengths

**Building on its key differentiator:** Hexaware delivers specialized SAP S/4 HANA services through its Amaze® for ERP platform, making an optimal path for S/4HANA transformation. With its dedicated CoE for SAP, the company has developed hyperintelligent solutions to assist clients during their transformation journeys. The company leverages SAP tools such as Joule, BTP and Signavio to optimize business processes and drive clean core development. It continues to focus on coinnovating with customers to offer tailored solutions.

**Leading platform focus:** Hexaware's proprietary ERP platform, Amaze®, helps enterprises identify the optimum path for S/4HANA transformation, tailored to their specific size and complexity. The platform

offers integrated tools and solutions such as FITRITE for S/4HANA assessment, Shift EZ for system analysis, SAP Signavio for process intelligence, tensai® for testing automation and CloudMorpho for data migration.

### Presence and relevance for U.S. clients:

As part of its strategic initiative, Hexaware is scaling its resources in the U.S. The company continues to innovate by infusing AI and GenAI for healthcare, manufacturing and business service clients. The company continues to witness decent growth in the U.S. market and is perfectly positioned to deliver large and complex S/4HANA transformation projects.

## Caution

Hexaware has strong SAP S/4HANA transformation capabilities and an established platform. However, with an increasing number of providers entering the midmarket and the evolving leadership landscape, the company should further enhance partnerships and employ more certified professionals to gain a competitive edge.
